ABEX Ai Exchange introduces a decentralized trading platform powered by AI-driven trading bots to optimize trades, reduce risks, and enhance profitability for traders.

Key Features:

1. **Platform Tokens:** ABX tokens, total issuance volume of 50,000,000.
2. **Blockchain Transparency:** Can be queried on the Binance Smart Chain (BSC) for full transparency.
3. **Security:** A decentralized and secure trading environment.
4. **Staking for Profit Generation:** Users can earn passive income through staking.

AI Bots vs. Normal Trading Bots

Feature	Normal Trading Bots	ABEX AI Trading Bots
Market Analysis	Based on pre-set rules	AI-driven sentiment analysis & deep learning
Adaptability	Limited to predefined conditions	Dynamically adapts to market fluctuations
Execution Speed	Fast but predictable	Ultra-fast with AI-powered execution
Risk Management	Basic stop-loss & take-profit	AI-driven risk assessment & smart protection
Decision Making	Based on static algorithms	Predictive trading strategies powered by AI

5. Staking & Rewards System

ABEX Ai Exchange offers a lucrative staking model designed to maximize user earnings with automated compounding.

Staking Rules:

- Minimum staking amount: **50 ABX**

- Rewards distribution: **0.3% every 8 hours (3x daily = 0.9% daily income)**

- Automatic reinvestment: **1% per day (~30% monthly yield)**

Projected Staking Rewards (Example for 1,000 ABX)

Duration	Estimated ABX Growth
1 month	1,309 ABX
2 months	1,714 ABX
3 months	2,245 ABX
4 months	2,939 ABX
5 months	3,949 ABX
6 months	5,040 ABX
7 months	6,600 ABX
8 months	8,643 ABX
9 months	11,317 ABX
10 months	14,819 ABX
11 months	19,405 ABX
12 months	25,410 ABX

Profit Release Options:

- **90 days:** No handling fee

- **60 days:** 15% handling fee

- **30 days:** 30% handling fee

5. Referral & Marketing Plan

ABEX Ai Exchange offers a referral program to encourage community participation and rewards users based on their referrals.

Referral Bonuses:

- Accumulated $1,000 → **0.3 ABX tokens**
- Accumulated $2,000 → **0.6 ABX tokens**
- Accumulated $3,000 → **0.9 ABX tokens**

Whole Network Weighted Bonus (100%)

The whole network's performance influences additional rewards based on a weighted system.

$$\frac{\text{Own small community static income} = \text{?? ABX tokens}}{\text{Whole network small community static income} = \text{?? ABX tokens}} = \text{?? \% weighted}$$

= ?? % weighted x whole network large and small community static income (?? ABX tokens)

= ?? ABX Tokens (daily income)

Performance	Daily Earnings
$10,000	10 ABX per day
$20,000	20 ABX per day
$100,000	100 ABX per day
$1,000,000	1,000 ABX per day
